**SPECIFICATIONS**

**Available dimensions:** bolt 1/4-20, 3/16-24 (UNC)

**Toggle material:** Carbon Steel AISI 1008/1010

**Toggle finish:** Zinc plated as per ASTM-B-633 Type III SCI

**Strap & cap material:** Acetal Copolymer

---

**KEY FEATURES & BENEFITS**

- 2X stronger than regular toggle wings for same bolt diameter.
- Installs with a screw gun or screw driver for easy installation.
- No need to pull back on the bolt anymore.
- New, simple, one strap design to hold the toggle perfectly vertical for easy insertion and flipping operation.

---

**MATERIALS**

**ACETAL COPOLYMER STRAP**

**CAP**

**COMBINED HEAD**

BOLT 3/16"-24 or 1/4"-20 thread

**INSTALLATION INSTRUCTIONS**

1. Drill the appropriate size hole (1/2" / 13 mm). Flip the head of the FlipToggle® in order for it to be inline and secured onto the strap.
2. Insert the FlipToggle® into the drilled hole. When completely inserted, pull the strap which will flip the toggle flat against the back of the wall.
3. Push the cap into the drilled hole until flush with the wall, and then hold the cap against the wall while pulling the strap towards you until reasonably tight.
4. Bend to snap off the excess of the strap flush with the wall. Insert the bolt through the fixture, into the anchor and tighten securely.

---

**CAUTION:** Always wear safety glasses. Follow the drill manufacturer’s safety instructions. Use only solid carbide-tipped drill bits meeting ANSI B212.15 diameter standard.

---

**NOTES:**

- Technical data is provided for a proper use of the anchor.
- Safe working loads represent a safety factor of 2:1 from ultimate test loads.
- To meet recommended load capacity, use the recommended style and drill size.
- You must have at least 2.5 inches of space behind the wall.
- The hole must be free of residual dust and drill debris.
- Not recommended for overhead applications.
- 3 inches minimum between anchors is recommended to prevent material deterioration.
- Charges may vary according to the quality of the drywall or hollow block.

---

**TOOLS REQUIRED**
