# **Material Safety Data Sheet**

Date of issue 16 January 2018

11.01

Version

### 1. Product and company identification

Product name	: LN-704 LIQUID NAILS INTERIOR PROJECTS CONSTRUCTION ADHESIVE AHE70424WH0
Code	: 00407680
Manufacturer / Supplier	: PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272
<u>Emergency telephone</u> <u>number</u>	: [412) 434-4515 (U.S.) (514) 645-1320 (Canada) 01-800-00-21-400 or + 52 55 5559 1588 (Mexico)
Technical Phone Number	: 1-800-441-9695 (8:00 am to 5:00 pm EST)

#### 2. Hazards identification

Emergency overview	: WARNING!
	MAY BE HARMFUL IF INHALED OR SWALLOWED. SANDING AND GRINDING DUSTS MAY BE HARMFUL IF INHALED. MAY CAUSE RESPIRATORY TRACT IRRITATION. CONTAINS MATERIAL THAT CAN CAUSE TARGET ORGAN DAMAGE. CANCER HAZARD - CONTAINS MATERIAL WHICH CAN CAUSE CANCER.
	Avoid breathing vapor or mist. Use only with adequate ventilation. Keep container tightly closed and sealed until ready for use. Wash thoroughly after handling.
Potential acute health eff	<u>ects</u>
Inhalation	: May be harmful if inhaled. Slightly irritating to the respiratory system.
Ingestion	: May be harmful if swallowed.
Skin	: No known significant effects or critical hazards.
Eyes	: No known significant effects or critical hazards.
Over-exposure signs/sym	<u>iptoms</u>
This product contains on a	- talling siling which can cause lung capper or silingsing. The risk of capper depende on the

This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications.

Medical conditions	: Pre-existing disorders involving any target organs mentioned in this MSDS as being at
aggravated by over-	risk may be aggravated by over-exposure to this product.
exposure	

# This Material Safety Data Sheet has been prepared in accordance with Canada's Workplace Hazardous Materials Information System (WHMIS). (1988 Version)

See toxicological information (Section 11)

### 3. Composition/information on ingredients

Name	CAS number	% (w/w)
Limestone	1317-65-3	15 - 40
Kaolin	1332-58-7	10 - 30
ethanediol	107-21-1	0.1 - 1
titanium dioxide	13463-67-7	0.1 - 1
cristobalite (<10 microns)	14464-46-1	0.1 - 1
crystalline silica, respirable powder (<10 microns)	14808-60-7	0.1 - 1
crystalline silica, respirable powder (>10 microns)	14808-60-7	0.1 - 1

Canada - Mexico Page: 1/7

Product name LN-704 LIQUID NAILS INTERIOR PROJECTS CONSTRUCTION ADHESIVE AHE70424WH0

### 3. Composition/information on ingredients

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Material Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

Eye contact	ate copiously with clean, fresh water, holding the ninutes and seek immediate medical advice.	
Skin contact	ng and shoes. Wash skin thoroughly with soap and cleanser. Do NOT use solvents or thinners.	t
Inhalation	erson warm and at rest. If not breathing, if breathin st occurs, provide artificial respiration or oxygen by	
Ingestion	dvice immediately and show this container or labe st. Do NOT induce vomiting.	
Notes to physician	symptomatically. Contact poison treatment species have been ingested or inhaled.	alist

### 5. Fire-fighting measures

Flammability of the product Extinguishing media	n a fire or if heated, a pressure increase will occur and the container may burs	st.
Suitable	Jse an extinguishing agent suitable for the surrounding fire.	
Not suitable	None known.	
Special exposure hazards	Promptly isolate the scene by removing all persons from the vicinity of the incide here is a fire. No action shall be taken involving any personal risk or without s raining.	
Hazardous combustion products	Decomposition products may include the following materials: carbon oxides netal oxide/oxides	
Special protective equipment for fire-fighters	Fire-fighters should wear appropriate protective equipment and self-contained apparatus (SCBA) with a full face-piece operated in positive pressure mode.	breathing

### 6. Accidental release measures

Personal precautions	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Canada - Mexico Page: 2/7

Product name LN-704 LIQUID NAILS INTERIOR PROJECTS CONSTRUCTION ADHESIVE AHE70424WH0

#### 6. Accidental release measures

Small spill

: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

### 7. Handling and storage

#### Handling

Storage

: Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Do not swallow. Do not get in eyes or on skin or clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. If this material is part of a multiple component system, read the Material Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.

: Do not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### 8. Exposure controls/personal protection

Name	Result	ACGIH	Ontario	Mexico	PPG
Limestone	TWA	Not established	Not established	Not established	Not established
Kaolin	TWA	2 mg/m <sup>3</sup> R	2 mg/m <sup>3</sup> R	2 mg/m <sup>3</sup> R	Not established
ethanediol	STEL	Not established	100 mg/m <sup>3</sup> C	100 mg/m <sup>3</sup> C	Not established
titanium dioxide	TWA	10 mg/m <sup>3</sup>	10 mg/m <sup>3</sup> TD	10 mg/m <sup>3</sup>	Not established
cristobalite (<10 microns)	TWA	0.025 mg/m <sup>3</sup> R	0.05 mg/m <sup>3</sup> R	0.025 mg/m <sup>3</sup> R	Not established
crystalline silica, respirable powder (<10 microns)	TWA	0.025 mg/m <sup>3</sup> R	0.1 mg/m³ R	0.025 mg/m <sup>3</sup> R	Not established
crystalline silica, respirable powder (>10 microns)	TWA	0.025 mg/m <sup>3</sup> R	0.1 mg/m³ R	0.025 mg/m <sup>3</sup> R	Not established

A = Acceptable Maximum Peak

#### Key to abbreviations

- ACGIH = American Conference of Governmental Industrial Hygienists.
  - C = Ceiling Limit
  - F = Fume
- IPEL = Internal Permissible Exposure Limit
- R = Respirable
- S = Potential skin absorption

#### Consult local authorities for acceptable exposure limits.

- Respiratory sensitization
- = Skin sensitization
- STEL = Short term Exposure limit values
- TD = Total dust

SR

SS

- TLV = Threshold Limit Value
- TWA = Time Weighted Average

Date of issue 16 January 2018 Version 11.01

Product name LN-704 LIQUID NAILS INTERIOR PROJECTS CONSTRUCTION ADHESIVE AHE70424WH0

### 8. Exposure controls/personal protection

Recommended monitoring procedures	: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
Engineering measures	: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Personal protection	
Eyes	: Safety glasses with side shields.
Hands	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Respiratory	: If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Skin	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### 9. Physical and chemical properties

	Canada - Mexico P	age: 4/7
Solubility	: Partially soluble in the following materials: cold water.	
Evaporation rate	: 0.05 (butyl acetate = 1)	
Volatility	: ₥% (v/v), 39.138% (w/w)	
Vapor density	: Not available.	
Vapor pressure	: 3.3 kPa (25 mm Hg) [room temperature]	
Density ( lbs / gal )	: 12.18	
Specific gravity	: 1.46	
Melting/freezing point	: Not available.	
Boiling/condensation point	: 100°C (212°F)	
рН	: 8	
Odor	: Characteristic.	
Color	: Off-white.	
Flash point	: Closed cup: Not applicable. [Product does not sustain combustion.]	
Physical state	: Liquid.

#### 9. Physical and chemical properties

Partition coefficient: noctanol/water % Solid. (w/w) : Not available.

**6**0.862

## 10. Stability and reactivity

Stability	: Stable under recommended storage and handling conditions (see Section 7).
Conditions to avoid	: No specific data.
Materials to avoid	: Reactive or incompatible with the following materials:,acids,oxidizing materials,strong alkalis
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous polymerization	: Under normal conditions of storage and use, hazardous polymerization will not occur.

#### 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
